Rainier Inserts

The Rainier Insert: Your Fireplace, Transformed

Turn your old fireplace into the stunning centerpiece your home deserves. The new Rainier Insert delivers a breathtaking fire that combines the beauty of a natural flame with the convenience of a modern gas appliance. This is more than an upgrade—it's a complete transformation.

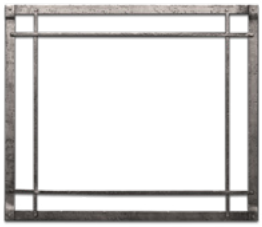

Key Features

- A Captivating Fire: Our advanced elevated burners are the secret behind the unit's stunning realism. They produce a dynamic, multi-dimensional flame that rises and dances with lifelike depth. This, along with a powerful triple burner system and an under-lit ember bed that radiates a vibrant, warm glow, creates a truly authentic experience.
- An Expansive View: Enjoy the full, dramatic beauty of the fire through a generous 19" H x 28¼" W glass viewing area. It's a captivating show from any angle in the room.
- Cozy Warmth: With an adjustable heat output from 21,000 to 32,000 BTUs, the Kennedy offers a versatile heat source for a wide range of rooms. A built-in blower circulates warm air to ensure your space feels cozy and comfortable from corner to corner.
- Effortless Control: The included full-function remote control lets you manage the flame height, blower speed, and lighting with ease. And with a battery backup, you can enjoy the warmth and ambiance even during a power outage.
